

NEEDED A FEW VOLTS

General Electric Fall Fourteen
and a Half Points

TO PAY ITS FLOATING DEBT

Room Traders Succeeded in Causing
a Flurry in Stocks, but the
Market Closed Strong.

NEW YORK. July 28.—Money on call
has been easy, ranging from 2 to 3½
per cent; discount loan at 3 per
cent and closing offered at 3 per cent.

Post office rates, \$1.124.83%.

Government bonds have been weak.

The stock market opened with a sharp
advance in prices, partly in sympathy
with the improvement at London and
continued purchases for investment for
foreign and domestic accounts. The
rise was from 3½ to 1½ per cent in many
instances, but was subsequently lost
under sales to realize profits as well as
offerings by the room traders, who soon
had to desert the short side. The only
real sensation of the day was furnished
by Electric, which broke during the
afternoon to 11½, a decline of 1½
points from the morning figure. The
directors had a protracted session and it was
officially announced long after the close of
business that it had been decided to offer
certain securities in the company's treasury
to the stockholders for the purpose of
floating the floating debt of \$4,000,000.
The transaction was \$1.200 shares, of which
\$6,212 were utilized. The market closed
solidly in tone.
